

Rope Halyard

Concord American Flagpole offers a complete line of Rope Halyards that are specially designed for the rigorous demands of outdoor flagpole systems. Available in various size and material specifications, all are braided, multifilament styles containing a smooth and rounded form perfect for flagpole pulley applications. For use in both External and Internal Cam Cleat applications.

Spools
Spools of Polyester, Nylon and Wire Core Rope Halyard are available.

Polyester Halyard

Strong, lightweight and rot and mildew resistant, Polyester Halyard combines good flexibility and shock load absorption with excellent resistance to abrasion.

HAL-0750-SIL	5/16" - Polyester Wire Core #10	500'

Wire Center Halyard

The strongest of the External Rope Halyard family, Wire Halyard greatly reduces the chance of halyard failure by adding the security of a multi-stranded cable inside a Polyester or Nylon shell.

WHITE POLYESTER WIRE CORE ROPE

BRONZETONE POLYESTER WIRE CORE ROPE

BLACK POLYESTER WIRE CORE ROPE

SILVER POLYESTER WIRE CORE ROPE

Nylon Halyard

Combining superior elasticity, rot and UV resistance with the ability to more efficiently absorb shock loads, Nylon Halyard provides superior strength and performance.

WHITE NYLON ROPE

Nylon Halyard
