

Internal Halyard Cam Cleat Rope Assembly

Cam Cleat Rope Assemblies are designed for rope based halyard systems utilizing a Cam Cleat mechanism to secure the Rope Halyard within the flagpole. Constructed with 5/16" Polyester Rope in both Wire Core or Standard designs, assemblies incorporate a stainless steel yoke attached with a machine set aluminum crimp. Each option includes a nylon safety stop for placement below the cam cleat, creating the safest Cam Cleat halyard system in the industry!

CAM CLEAT POLYESTER ROPE ASSEMBLY

COMPLETE CAM CLEAT ROPE HALYARD KIT
