## Talon Flag Fastener

The Talon Flag Fastener is engineered to provide a secure, streamlined connection for virtually any flagpole setup. Designed and manufactured by Eagle Mountain Flag & Flagpole, this innovative fastener serves as a durable alternative to traditional snap hooks, snap hook covers, and spring clips. Constructed for strength and simplicity, the Talon features a rugged build that reduces noise, minimizes wear, and eliminates common hardware failures associated with multi-component systems. Its low-profile design keeps your flag flying cleanly while maintaining a reliable hold in a wide range of conditions. Ideal for both commercial and residential flagpoles, the Talon Flag Fastener combines multiple functions into one dependable solution, delivering long-lasting performance even in demanding environments.

### Key Features:

- **Made of Acetal Copolymer Polyoxymethylene:** Known for its superior resilience, Delrin provides high wear resistance, ensuring these cleats remain reliable over time.
- **All-in-One Design:** Replaces snap hooks, covers, and spring clips with a single, integrated fastener.
- **Quiet Operation:** Minimizes noise compared to traditional metal snap hooks.
- **Secure Hold:** Keeps your flag firmly attached, even in windy conditions.
- **Durable Construction:** Built to withstand outdoor elements for long-term use.
- **Low Profile:** Sleek design reduces tangling and wear on your flag.
- **American Made:** Proudly designed and manufactured by Eagle Mountain Flag & Flagpole.
