Display Set-Up

Step 1

Assemble frame on the ground by pushing in the button on the 90° Connectors (3) and inserting one on each side of the Steel Top Pole (2).

Step 2

To create a larger width frame, your kit may come with Pole Connectors (4). Insert one between two Steel Top Poles (2) to create one long pole.

Insert this end into second pole

Step 3

Place the top portion of the frame on the ground and dig two 8" deep holes where the 90° Connectors (3) touch the ground.
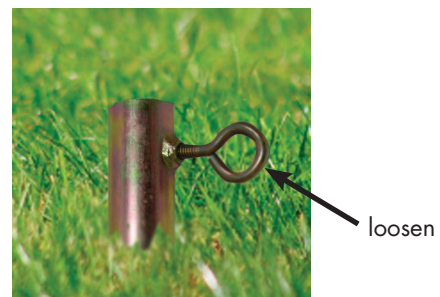

*Use safety precautions before digging.

Dig Hole   Dig Hole

Step 4

Insert the Optional Ground Sleeves (5 - Sold Separately) into the ground holes. Pack dirt or sand around to hold them in place.
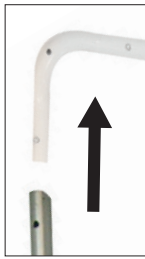

Loosen the Eye Bolts to prepare for the Steel Side Poles (1).

loosen

Step 6

Slide the Steel Side Poles (1) over the 90°
Connectors (3).

Step 7

Stand the frame upright and insert the Steel Side
Poles (1) into the Optional Ground Sleeves (5 - Sold
Separately). Tighten the Eye Bolts to secure.
